

# Diversity:

## A Value Added Dimension to our Health System

Northwestern Ontario is noted for its cultural diversity. Respecting diversity in our communities and workplaces will enhance our social and business cohesion, helping make ours a safe and successful region in which to live and work. Leadership from Board Chairs and members, senior leaders and others interested in this important topic are crucial to making this happen.

The North West LHIN and Thunder Bay Regional Health Sciences Centre Boards of Directors invite you to join us to discuss and learn about the value of diversity in our communities and health system.

### THE SESSION WILL EXPLORE:

- How do we evolve to cultural competency on a LHIN-wide basis?
- What can we learn from others who are striving for cultural competency?
- How does diversity in our communities make us better as leaders, health care organizations, and communities?

### WHO SHOULD ATTEND?

- Board Directors / Trustees
- CEOs / Executive Directors
- Other leaders in the health system
- Health Professionals
- Municipal Leaders
- Community Partners

**Ontario**

North West Local Health  
Integration Network

**September 9, 2010**

Italian Cultural Centre,  
132 Algoma Street S., Thunder Bay, ON

8:30am to 3:30pm EST
